EDUCATION

University of Illinois at Chicago (UIC) | GPA - 4.0/4.0 Aug 2023 - May 2025
Master of Science in Computer Science
Relevant Coursework: Introduction to Machine Learning, Neural Networks, Computer Algorithms, Advanced Machine Learning, Data Mining & Text Mining

PES University Aug 2018 - May 2022
Bachelor of Technology in Computer Science
Relevant Coursework: Machine Learning, Deep Learning, DBMS, Data Science, Data Analytics, BigData, Python App Programming, Information Retrieval

TECHNICAL SKILLS

- **Programming Languages:** C | C++ | Python | C#
- **Front-end and Back-end technologies:** HTML | CSS | JavaScript | Bootstrap | React | Node.js | PHP | .NET
- **Scripting:** Linux Shell Scripting
- **Database:** MySQL | MongoDB
- **Tools:** AWS | Hadoop | PySpark | Android Studio | Git | Electron.js | Scilab | Arduino IDE
- **Python Libraries:** Pytorch| Tensorflow | Transformers | NumPy | Matplotlib | Pandas | scikit-learn | scikit-image | Plotly | OpenCV | NLTK

EXPERIENCE

Graduate Research Assistant - Software Developer | **University of Illinois Chicago, USA** Jan 2024 - present
Working with **Android Studio, C#, .NET, SQL** and **Flutter** to provide **application development services** to the Administrative Department, VCAS

System Performance Analyst | *IBM, India* | **CI/CD, Linux, KVM, Shell Scripting, Prediction, Data Visualization** Jul 2022 - Jul 2023
- **Improved write performance** of PostgeSQL's benchmark pgbench by **2.5x** on IBM Power Systems
- Optimized Linux performance CI test & analysis via **need based performance data collection** & **predictive model** trained on system parameters
- Brought **3.5x improvement** in performance CI test's runtime & **82% reduction** in workload **space consumption**
- **Built** a **data management & visualization tool** to manage & visualize workload-performance data across various **Linux builds** & identify **regression**

Intern - India System Development Lab | *IBM, India* | **CI/CD, Jenkins, Power System, Performance Analysis, Git** Jan 2022 - Jul 2022
- **Analyzed performance** of multiple **Linux benchmarks** & **cryptographic ciphers** across multiple **RHEL and SUSE** kernel releases on IBM Power systems
- Worked with **Hardware Management Console**(HMC) & **Virtual I/O servers**(VIOS) to test IBM Power systems' performance
- Worked on **CI pipeline** using **Jenkins** that automates workload-execution, obtaining performance output and **identifying regressions**

Teaching Assistant (Blockchain & Statistics for Data Science) | *PES University, India* Aug 2021 - May 2022
Assisted **Prof. Shruti Jadon & Mamatha HR in** preparing **presentations** & **test questions** and **grading assignments** for the courses

PROJECTS

Quora Duplicate Question Detection: Comparative Analysis | PyTorch, NLTK, Sklearn, NumPy, Pandas, Matplotlib
- **Applied** text **preprocessing** techniques: tokenization, stop-word removal, stemming & lemmatization on Quora question pairs
- **Embedded** the question pairs using **BagOfWords, Word2Vec and TF-IDF** representations **on batches** of the huge question-pair dataset
- **Classified** duplicate question pairs using traditional models **SGD-Classifier** (acc: 73.24%), **Naive Bayes Classifier** (acc: 74.06%), XGBoost (acc: 81.99%)
- **Fine-tuned BERT** model(acc: 78.265) & **analyzed** its **performance** against **traditional models**; compared **impact of embedding** on model performance

Face Sketch-Photo Synthesis & Recognition | Tensorflow, OpenCV, PIL, NumPy
- Built a framework to **convert face-photos to face-sketches** using **Two Scale Image Decomposition with Bilateral Filtering**
- Trained a 9 layered **Convolutional Neural Network,** post preprocessing, on the **celebA database** to **convert face-sketches to photos**
- Employed **Fisherface Linear Discriminant Analysis** to perform **facial recognition** of face-photos with an **accuracy** of **91.875%**

Character-level Text Generation LSTM | PyTorch, NumPy
- **Implemented** an **LSTM** trained on a dataset of names post preprocessing the input into a length-11 sequence of 27 dimensional vectors
- **Softened** the algorithm by **extracting top-10 most probable predictions** and selecting a **random sample** from them to predict the next letter

Digit Detection Using Autoencoder | PyTorch, Sklearn
- **Engineered** autoencoder with 3 **convolutional** layers in the **encoder** and 2 linear layers in the **decoder** to detect digits from the images in the dataset
- **Trained** the network with 73% accuracy to perform **k-means clustering** on encoder output of images & **reassigned clusters** based on most-frequent true label

Data Analytics on Mental Health in Tech & Tech Employees | Sklearn, NumPy, Pandas, Matplotlib, Plotly
- **Predicted** possibility of being diagnosed with a mental health issue using **Gradient Boost Classifier** with an accuracy of **93.939%**
- **Clustered** employees into 3 risk-clusters, high, medium and low using **Spectral Clustering** with a Calinski-Harabasz index of: **316.76;** Computed **risk-score**
- Analyzed the **impact of workplace factors**; Performed **multi-year study** on pandemic's impact & the **mental health scenario** in tech **pre & post-COVID-19**

PAPER PRESENTATIONS & PUBLICATIONS

- Mitravinda, K. M., et al. "Face Sketch-Photo Synthesis and Recognition" *International Conference on Image Processing and Capsule Networks*. Cham: Springer International Publishing, 2022. **DOI;** Presented at the **3rd International Conference on Image Processing and Capsule Networks**
- Mitravinda, K. M., Devika S. Nair, and Gowri Srinivasa. "Mental Health in Tech: Analysis of Workplace Risk Factors and Impact of COVID-19" *SN computer science* 4.2 (2023): 197. **DOI**; Presented at the **3rd International Conference on Adaptive Computational Intelligence**
- Mitravinda, K. M., and Sakshi Shetty. "Employee Attrition: Prediction, Analysis Of Contributory Factors And Recommendations For Employee Retention" ***2022 IEEE International Conference for Women in Innovation, Technology & Entrepreneurship (ICWITE)***. IEEE, 2022**. DOI**
- Research paper 'Modernizing Performance CI' presented at the IBM India Systems Development Labs symposium 2022
